THE GREAT COUGH REMEDY!

READER! have you a Cough, which you are neglecting, under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, is all kindness, what will soon be the probable result. in a short time, if you confinue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pains. Then a dry, hacking Congli will set hi, and when you raise anything it will be a think and vellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicate these malerants expanding will increase and control these malerants expanding will increase and control these malerants expanding will increase and control to the control of the con mather, streaked, perhaps, with blood. If you still take no medicine, these unpleasant synaptons will increase, and you will soon have Hechic Fever, Cold Chills, Night Sweats, Copious Expectoration, and then Great Prostration. If you still neglect yourself, a lew weeks or months will see you consign ed to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.—Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Constanting to a free control of the control of t sketch you may see us in a glass, how every case of Con-straightou pregresses, with more or less randity, to a fatal termination. Of all the Thousands and Millions where this great Destroyer has gathered to the tenth, every single case began with a Color. It flats had been attended to, all might have been well but, being neglected, under the fatal delision that it would "were itself," it transferred its deadly action to the substance of the langs, exciting there the formation of tubercles. Another, and another cold added feel to the flame, until these tubercles began to soften and suppurate caving, by their ulceration, great envires in the Lungs. In the latter or worst stage, this medicine will oftentimes arest the disease, or check its progress, and will always make the patient more comform the, and prolong his life, and is therefore worthy of a trial;—but in its incipient or farming periods, Consumption is as curable as any other disease, and "Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagus," if taken at this time, will cure it [27] AS SURELY AS IT IS TAKEN! [38] This is strong language, but we can refer you to numberless living withesees to prove that it is TRUEZ And therefore, we carnestly exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house; and whenever you take Cold, do not "left it alone" to work mischief in your system, but endicate it thoroughly, at once, by this power, fully healing compound and loave your langs uninjured, to carry you in full vigur to a good old age!

Have you delicata, weakly children, who are always taking Have you delicate, weakly children, who are always taking coid, and subject to Croup? Remember? There never was coid, and subject to Croup? Remember: There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning. Croup may not set in, and cre you can get a Physician, your dear child may be beyond the teach of help. We beseen you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence concluding give it in these at case and rest, not must be example.

Let every Mother, especially, heed well these remarks, that she may not hereafter, when mourning over the carly blight of some charled biossom, have occasion bitterly to reprouch herself for her criminal neglect.
